

DOG DAYCARE

Our dog daycare flooring system consists of:

- *Rolled Rubber* - for comfort, durability & sound reduction.
- *Sikaflex Seam Sealant Adhesive* - can act as a bonding agent to waterproof flooring seams.
- *Rubber Flooring Sealant* - produces a simple to clean, and easily sanitized floor.

DOG AGILITY

Rubber flooring provides a durable, resilient surface for dog play, agility practice or competition while allowing easy cleanup for accidents. Using rubber flooring for dog agility courses gives added traction, joint protection and shock absorption for the dogs (and trainers!) while running and jumping.

DOG DAYCARE FLOORING & PRODUCTS

OUTDOOR & INDOOR KENNELS

Our rubber flooring is high quality and durable, and is perfect for indoor and outdoor kennels. Our rubber mats provide a strong, resilient surface that helps protect your dog from ground moisture and biting insects.
